Degree: B.E - AI & ML

## NeoColab\_REC\_CS23231\_DATA STRUCTURES

REC\_DS using C\_Week 4\_COD\_Question 3

Attempt : 1
Total Mark : 10
Marks Obtained : 10

Section 1: Coding

#### 1. Problem Statement

Write a program to implement a queue using an array and pointers. The program should provide the following functionalities:

Insert an element into the queue. Delete an element from the queue. Display the elements in the queue.

The queue has a maximum capacity of 5 elements. If the queue is full and an insertion is attempted, a "Queue is full" message should be displayed. If the queue is empty and a deletion is attempted, a "Queue is empty" message should be displayed.

## Input Format

Each line contains an integer representing the chosen option from 1 to 3.

Option 1: Insert an element into the queue followed by an integer representing the element to be inserted, separated by a space.

Option 2: Delete an element from the queue.

Option 3: Display the elements in the queue.

### **Output Format**

For option 1 (insertion):-

- 1. The program outputs: "<data> is inserted in the queue." if the data is successfully inserted.
- 2. "Queue is full." if the queue is already full and cannot accept more elements.

For option 2 (deletion):-

- 1. The program outputs: "Deleted number is: <data>" if an element is successfully deleted and returns the value of the deleted element.
- 2. "Queue is empty." if the queue is empty no elements can be deleted.

For option 3 (display):-

- 1. The program outputs: "Elements in the queue are: <element1> <element2> ... <elementN>" where <element1>, <element2>, ..., <elementN> represent the elements present in the queue.
- 2. "Queue is empty." if the queue is empty no elements can be displayed.

For invalid options, the program outputs: "Invalid option."

Refer to the sample output for the formatting specifications.

Sample Test Case

Input: 1 10

```
24,150,1049
Output: 10 is inserted in the queue.
    Elements in the queue are: 10
    Invalid option.
    Answer
    #include <stdio.h>
    #include <stdlib.h>
    #define max 5
    int queue[max];
    int front = -1, rear = -1;
   // You are using GCC
int insertq(int *data)
      if ((rear+1)%max==front){
        return 0;
      if(front==-1){
        front=0;
      rear=(rear+1)%max;
      queue[rear]=*data;
      return 1;
    void delg()
      if(front==-1){
        printf("Queue is empty.");
        return;
      }
      int data=queue[front];
      if(front==rear){
        front=rear=-1;
                                                   247507049
front=(front+1)%max;
      else{
```

24,150,104,9

241501049

247507049

```
24,150,104,9
                                                   24,150,1049
  printf("Deleted number is: %d\n",data);
void display()
  if(front==-1){
    printf("Queue is empty.");
    return;
  }
  printf("Elements in the queue are:");
  int i=front:
  while(1){
    printf("%d ",queue[i]);
                                                                                24,150,104,9
   if(i==rear)break;
    i=(i+1)%max;
  printf("\n");
int main()
  int data, reply, option;
  while (1)
    if (scanf("%d", &option) != 1)
       break;
    switch (option)
       case 1:
         if (scanf("%d", &data) != 1)
            break;
         reply = insertq(&data);
         if (reply == 0)
            printf("Queue is full.\n");
         else
            printf("%d is inserted in the queue.\n", data);
         break;
       case 2:
                     Called without arguments
         delq(); //
                                                                                24,150,104,9
                                                   247507049
         break;
       case 3:
         display();
         break;
```

```
Ansono default:
                                                                            247507049
                                                   24,150,104,9
             printf("Invalid option.\n");
break;
      }
       return 0;
     }
     Status: Correct
                                                                      Marks: 10/10
